Information Disclosure Statement

Commissioner for Patents PO Box 1450 Alexandria, VA 22313-1450 Sir:

Listed on accompanying Form PTO-1449 are documents that may be considered material to the examination of this application, in compliance with the duty of disclosure requirements of 37 C.F.R. §§ 1.56, 1.97 and 1.98.

Copies of documents AP2, AL3 and AS8 are included. Copies of all other documents were cited by or submitted to the Office in an IDS that complies with 37 C.F.R. § 1.98(a)-(c) in Application No. 10/076,647, Ryan et al., filed February 19, 2002 (now U.S. Patent No. 6,600,142), which is relied upon for an earlier filing date under 35 U.S.C. § 120. Thus, copies of these documents are not attached. 37 C.F.R. § 1.98(d).

In accordance with 37 C.F.R. § 1.98(a)(3), Applicants' undersigned representative submits the following, in regards to non-English language documents AM1, AN1, AO1, AP2 and AL3 cited on Form PTO 1449:

Document AM1, French Patent Publication No. FR 1407582, is in the French language. An unverified English language translation of document AM1 is attached as document AS2.

Document AN1, German Patent Publication No. DE 1745464, is in the German language. An unverified English language abstract of document AN1 is attached as document AT1.

Document AO1, French Patent Publication No. FR 2248311, is in the French language.

An unverified English language abstract of document AO1 is attached as document AR2.

Document AP2, PCT published application No. WO 97/16492, is in the Japanese language. An English language abstract is included on the first page of this document. U.S. Patent No. 6,001,911, an English language equivalent of document AP2, is also being submitted in an Electronic Information Disclosure Statement filed herewith.

Document AL3, is a non-English language Japanese unexamined patent publication (Hei 11-179854) in the left column, with an unverified machine translation shown in the right column. An unverified English language translation of the tables found in document AL3 is attached as document AS8.

The Examiner's attention is directed to the following co-pending U.S. Patent Application, which is directed to related technical subject matter: U.S. Patent Application No. 09/667,720, Ryan *et al.*, filed September 22, 2000 and submitted herewith as document **AT7**.

The identification of this U.S. Patent Application is not to be construed as a waiver of secrecy as to this application now or upon issuance of the present application as a patent. The Examiner is respectfully requested to consider the cited application and the art cited therein during examination.

Where the publication date of a listed document does not provide a month of publication, the year of publication of the listed document is sufficiently earlier than the effective U.S. filing date and any foreign priority date so that the month of publication is not in issue. Applicants have listed publication dates on the attached Form PTO-1449 based on information presently available to the undersigned. However, the listed publication dates should not be construed as an admission that the information was actually published on the date indicated.

Applicants reserve the right to establish the patentability of the claimed invention over any of the information provided herewith, and/or to prove that this information may not be prior art, and/or to prove that this information may not be enabling for the teachings purportedly offered.

This statement should not be construed as a representation that a search has been made, or that information more material to the examination of the present patent application does not exist. The Examiner is specifically requested not to rely solely on the material submitted herewith.

This Information Disclosure Statement is being filed before the mailing date of a first Office Action on the merits. No statement or fee is required. This IDS is being filed as five submissions on the same day. Four submissions are electronic and one submission is non-electronic. It is respectfully requested that the Examiner initial and return a copy of the enclosed Form PTO-1449, and indicate in the official file wrapper of this patent application that the documents have been considered. The U.S. Patent and Trademark Office is hereby authorized to charge any fee deficiency, or credit any overpayment, to our Deposit Account No. 19-0036.

Respectfully submitted,
